Information and instructions for candidates

The electronic files listed below are provided for you to use during this examination:

- 'Q5 Coffee.csv' a spreadsheet file containing a data set
- **'Q5 Coffee Answers.docx'** a word processing file. Your output from the statistical software in questions 5 (a), (b) (i), and (c) (i) must be copied and pasted into this file for printing.
- 'Q8 Warehouse.xlsx' a spreadsheet file containing 1 worksheet
- 'Q11 Ramsay's Loan.xlsx' a spreadsheet containing 2 worksheets

You must display your name, SCN and centre name on all pages on each printout. Spaces have been provided in each electronic file for you to complete this information.

When printing spreadsheet files, ensure that:

- landscape orientation is used
- grid lines are shown
- row and column headings are shown
- the option 'Fit All Columns on One Page' is selected.

When printing word processing files ensure that portrait orientation is used.

Use this table to make sure you have all the printouts required.

Question	Printout	Completed (🗸)
	'Q5 Coffee Answers.docx'	
5 (all parts)	This should include your statistical software output, and answers.	
	'Warehouse Stock' worksheet	
8 (a) and (b) (i)	• value view	
	• formula view	
	'Bank Loan' worksheet	
11 (a)	value view	
	• formula view	
	'Loan Company' worksheet	
11 (b)	value view	
	• formula view	

Total marks — 65 Attempt ALL questions

1. A school year in Scotland usually lasts 190 days.

Estimate the total number of hours that a typical pupil in Scotland will spend in school during their lifetime.

State any further assumptions you make.

a)	Explain what this figure means in terms of relative purchasing power.	1
	e price of a new 3-door car rose in line with CPI between April 2015 and il 2021.	
n 2	021, the price of a new 3-door car was £14,108.	
b)	Calculate the price of a new 3-door car in April 2015.	1
The	National Living Wage is the minimum hourly rate to be paid to any employee	
-	d 23 or older.	
	pril 2021, the National Living Wage was £8.91. This was raised to £9.50 in il 2022.	
(c)	Given that the CPI in April 2022 was 119.0, determine whether this rise in the National Living Wage was in line with inflation.	2

MARKS | DO NOT WRITE IN THIS MARGIN You must refer to the information on 'E10 Petrol' given in the pre-release material when answering this question. At the end of June 2021, the UK government replaced the standard E5 fuel with E10 in a bid to reduce national CO_2 emissions. A newspaper article stated that: 'Since the nationwide introduction of E10 fuel, CO₂ emissions have reduced to the effect of taking 550 000 cars off the road by the end of 2022.' (i) Calculate the CO_2 emissions of 550 000 cars. 1 (a) (ii) Suggest a reason why the information from the newspaper article might not be appropriate as part of any further research on reducing CO₂ emissions. 1 The fuel economy of a car, F miles per gallon (mpg), is reduced when it carries an additional load of *m* kilograms. The fuel economy of a small car is modelled using the following equation:

$$F = 73.6 \times 0.98^{\frac{m}{45}}$$

(b) (i) State the independent variable.

10.

(ii) Estimate the fuel economy of the small car when it is carrying an additional load of 150 kg.
